When you have your portrait taken you naturally want a GOOD one; to ensure this you must go to a place where not only the best appliances and artistic skill are to be found, but where also TIME can be taken to study your features, get their most pleasing expression, the most suitable light and graceful pose.
If the photographer lowers his prices too much he cannot take the necessary time to do his work well, but must run his customers through like sheep, trusting to the NUMBER to make his profit.
A sensible person will beware of such and prefer to go where fair prices are charged and every care taken to ensure the work turning out satisfactorily; such is the case at the "Gran Fotografia Platense" whose customers never having been driven away by excessively high prices do not require to be lured back by catchpenny reductions.

A violent tempest has done much harm in the province of Burgos.

Berlin, 20th.—The defeat of Balois's German expedition is confirmed. Baron von Barlow was wounded.

Paris, 20th.—The Archbishop of Dublin gave a lecture before the Geographical Society on the progress of Catholicism in America. Many dignitaries of the Church were present.

Prince Henri d'Orleans and President Carnot's second son have arrived at Marseilles from Cambodia in the same steamer.

Rome, 20th.—The Liberals won the Municipal elections, and ex-Premier Crispi was one of the successful candidates.

Teheran, 20th.—The *Times* correspondent says that the official figures in reference to the cholera epidemic show 100 deaths daily, but private calculations are double this. The disease is making terrible havoc in Persia and Afghanistan, and the streets are full of corpses.

BRITISH HOSPITAL BAZAAR.

This evening the great charitable effort of the British community will be inaugurated by the President of the Argentine Republic, and he will be received by a guard of honour of seamen from H. M. gunboat Magpie and the U. S. man of war, Bennington.

We have again visited the magnificent salon No. 978 Piedad, corner of Artes, which now presents a scene of extraordinary beauty and great animation, and everything promises a "success eclatant" worthy of the efforts and liberal expenditure of those who are responsible for the arrangements. We feel sure that every Britisher will try to be present, and we hear that members of most of the best Argentine families have been invited and will attend.

The beauty of the various stalls is remarkable and we really cannot describe them in detail.

Every individual stall is different and a work of scene-painter's art in itself that Mr. Paul Haines and the staff of the San Martin Theatre may well be proud of. Comparison is invidious when all are good, and there is a marvellous contrast between the brilliantly coloured and delicately designed "Vanity Fair," Tricolour," "Quilmes" and Japanese stalls, and the sombre old "Providence House" or the simple "Hibernia," while brightness and variety are conspicuous in the "Tyrolienne" chateau and "Ye Foreign and Domestic Shoppe" and the "Flower Stall."

For scenic effect the Scottish Castle where the "Gathering of the clans" will be held is most remarkable and for novelty the "Children's Paradise."

For weeks the Committee have been hard at work, and the arrangements are excellent for a really attractive Fancy Fair. There is a very pretty theatre, where we can again see the fun at 'Mrs Jarley's Waxworks,' and there will be short concerts given by a select few of our best amateur singers, some variety entertainments, also an exhibition of scene views of great beauty.

The shooting gallery is already causing considerable excitement, and some valuable sweepstakes are being got up, and there will be a championship competition. The 'Post Office' has received letters, containing important information, that are waiting for applicants, and the 'Wizard of the South' is coming to tell what is in store of good or ill for those who consult the oracle.

The valuable goods are placed ready for sale in the stalls and are evidence of the kind feeling and real generosity of many friends at home, for they represent a value of over £2,000 and are well selected to suit the wants and the pockets of all, and very moderate prices are fixed on all the articles. Already many are bespoken, so it behooves buyers to be quick.

Ismael's band will discourse sweet music all the evening, and there is a charming bower attached to "Ye Leather Bottel", where choice wines and dainty viands that have been graciously given to the Committee will be served by fair hands.

In fact, everything has been done to make this "Fancy Fair" a grand "fiesta de caridad" worthy of the excellent cause for which it is designed, and it is gratifying to find all Britishers working in harmony to secure a great success.

In continuation of their campaign in the Home Counties, the National Liberal Federation held a series of meetings in Essex. A race on wooden legs from Bordeaux to Biarritz and back, a distance of 303 miles, was begun yesterday. Eighty-one stilt runners entered for this race, left the Hotel de la Gironde at eight o'clock yesterday morning, being "played off" by a brass band. They were accompanied by a party of bicyclists, whose duty was to see that fair play was observed. Among the racers was the Arcachon baker, Silvain Dornon, who travelled on stilts, or claimed to have done so, from Paris to Moscow.

A quarter of an hour after the stilt racers had set out from Bordeaux a party of eighteen women and young girls, also mounted on stilts, left Bordeaux for Cerans, having undertaken to run there and back, a distance of fifty miles, in the day.

Palermo, 27th.

Palermo was en fête to-day, on the occasion of the unveiling of the new monument to Garibaldi. The chief interest of the event, however, lay in the speech delivered by Signor Crispi, which had been much looked forward to, especially in view of the uncertainties of the present political situation. The former Premier arrived here this morning, and at once proceeded to the scene of the day's ceremony, being greeted everywhere with much enthusiasm. His speech was mainly an eulogy of Garibaldi and an appeal to all patriotic Italians to follow in the Liberator's footsteps.

Washington, 26th.

The Committee of the Senate to-day presented its report upon a claim made by two Americans named Witham and Webster against Great Britain for compensation for the seizure of half a million acres of land in New Zealand, which the claimants allege were acquired by Webster from native chiefs. The matter has already been a subject of dispute for many years. The Committee, in their report, recommend the Senate to request President Harrison to propose to Great Britain to submit the question to arbitration. The Senate passed a resolution in accordance with the Committee's recommendation.

At a Cabinet Council held at the Elysée this evening the Spanish tariff proposals were finally agreed to, and on Sunday next the *Journal Officiel* and the Spanish Official Gazette will publish decrees announcing the renewal of commercial relations between the two countries. By the new arrangements which come into force on the 30th instant Spanish goods are accorded the French minimum tariff, and French goods enjoy the advantages of the conventional tariff subsisting between Spain and Great Britain and other countries until June 30th.

The answer given by the Porte to the Bulgarian Note is altogether different from what was expected. It declares the moment to be most inopportune for raising the question of the recognition of Prince Ferdinand, and does not even promise in a clear way to demand the extradition of the supposed instigators of the murder of Dr. Vulkovitch. It only volunteers to place all persons designated as suspicious by the Bulgarian Government under strict police supervision. The impression produced by this answer in Sofia is very unsatisfactory.

Copenhagen 27.

About 10,000 veterans of the wars of 1848-50 with 60 flags marched to the Palace of Amalienborg to-day to offer their congratulations to the King and Queen. The King, who on stepping forward to address them was greeted with tumultuous cheering, said:—"No one knows better than I do with what heroic bravery you have fought and bled for the Fatherland. It is for this reason that I feel so greatly attached to you, my beloved companions-in-arms, whose bravery commanded the respect of our enemies. Accept my heartiest thanks."

The German Cyclists' Association, which had organized a pilgrimage to Friedrichsruh for Ascension Day, was received most warmly by Prince Bismark. In replying to the address presented to him, the ex-Chancellor thanked the association for the honour which they had done him by their demonstration and for the good they were doing in promoting a spirit of athleticism in Germany after the example of the English. Dwelling on the political aspect of the work of the association, Prince Bismarck remarked that everything which tended to unite the various States of Germany into an harmonious whole was deserving of praise. He rejoiced to see that the influence of the club extended itself as far as Austria and that the work of union in which he had taken a share was being furthered by a love of healthy exercise, of which there was only too little in Germany. The Prince's speech was greeted with enthusiastic cheers, which were renewed again and again as he kept raising his hat to the cyclists, who defiled, saluting, in front of the castle.

PARIS LETTER.

(*From our own Correspondent.*)

May 2nd.

The trade and industry of France commence to suffer from the operation of the new ultra-protection tariffs, though only in operation three months. Exports continue to alarmingly shrink—the latest returns, those for the month of March reveal a diminution of 74 millions, of which about 45 millions under the head of manufactured goods. It requires no ghost from the grave to predict, that in October next, when the legislature meets for its new annual session, the burning question will be, the repeal of the tariffs. It is with a Sister Anne anxiety that French 'commercants' look for orders from Argentina and South America generally. It is in Parisian society that the absence of wealthy Argentines leaves a blank. The Treasury now publishes every month the total value of the exports and imports between France and other countries; this will be productive of incalculable good, as showing the French on which side of their bread is the butter, and where reside their best customers. England purchases more from France than the total of any other two nations put together. France must seek some remedies to check that tumbling down the hill of her commerce. And then the loss of revenue the dwindled exports etc. represent, and which must be made up by fresh home taxation.

Other calamity: the sudden setting in of snow and sharp frosts after our March summer, has resulted in the destruction of this year's vintage, according to trustworthy and unalarmist estimates, to the extent of two-thirds of the Medoc districts alone. And the superior growths have most suffered. The frosts simply burned up the vine buds. France will have to import largely Spanish wines this autumn, and against her will, for blendings for the foreign markets, while her home consumption, fermented raisin wine, will be a largely manufactured beverage.

The Dahomey war, as if France had not sufficiency of sorrows, will cost more men and money than what the French believe before they muzzle King Behauzin, who apparently, in addition to the advantages of climate, has his warriors well armed with 4,000 repeating rifles and some revolver cannon. It is a pity to see France thus wasting her blood and treasure in the conquest of a protectorate that will never repay its expenses, while she has so many superior land-graba to colonize and to develop elsewhere. On the Congo her affairs do not appear to be very brilliant; the principal commercial company founded to work up that slice of Africa has sold out to a Belgian society. Unless the French decide to colonize their possessions, the latter only form so many millstones round the neck of France.

The Marquis and Marchioness of Dufferin have held their first "At Home" for the reception of the English colony here. The magnificent salons of the Embassy were filled with British residential visitors, irrespective of creed or class. Nothing could exceed the affability, ease and frankness of manners—all natural, too—of the Marquis and his lady, both Irish to the backbone. They looked a "cead mille fealthe". The Embassy has now the right occupants in the right place. The Marquis is feared on account of his proverbial great ability, as much as for the influence of his popular, his democratic social qualities.

An old Moorish treatise on Geography has been discovered, where the author, Al Hurid, visited western Europe about the ninth century; he made a trip to Ireland, then under nominal Normand sway, but not occupied by the Noresmen. He remarked, that the inhabitants all wore costly mantles, ornamented with pearls, gold, etc. He alludes to some of the industries of the island, whose circumference he estimates to be 1000 miles, and one of which is now lost, that of catching young whales for food. Perhaps Mr. Balfour might arrange to revive this phase of deep sea fishery. The fishermen put off in their skiffs, and then clapped their hands. Instantly, the young whales responded, and came alongside the boats, 'to have their heads scratched'; while thus occupied, one man placed a harpoon nail on the whale's head, and another hammered it in; at first blow, the whale took the matter as a practical joke, a new kind of harmonican; at the second blow it resented the liberty, and when struck a third time, entered in the struggle for life. Dead, the whale was cut up, and its flesh, white as snow, salted; at the end of four months, however, it became as hard as leather. When the mother of the whale attempted to come to the rescue of its infant, the Irish Sailors threw chopped garlic into the sea, and she disappeared at once in disgust. Now when hippopotamus steaks are so highly spoken of, potted Irish whale might figure among first courses at dinner tables.

PROVINCIAL NEWS.

An old electoral dodge, to judge by the telegrams received yesterday, has been adopted in Santiago del Estero. The question at issue was the election of the Governor and Vice-Governor, and there were two ways of ensuring the triumph of the official ticket: one was to use Krupp guns and do away with the opposition; the other was to have an electoral college entirely composed of friends of the official candidates. To the honour of civilization and undying credit of Santiago del Estero be it recorded that no Krupp guns were used; no blood was spilt. The charms of peace prevailed, and the question was very quitely settled in the following ingenious way: A few days before the election, a number of Government employees resigned their posts and were transformed into electors. The election came off; the official ticket was unanimously returned, and we presume everyone is satisfied in Santiago del Estero.

Things are improving wonderfully in San Luis ever since the Governor and his ministers have been laid up with influenza. Not much good, of course, can be done while their excellencies are prevented by the plague from attending to their onerous duties, but during their absence no evil has been done, nor have any blunders been perpetrated. This is all the province requires, as its vitality is great. Thus evil, in the shape of a plague, is productive of good, and good, in the shape of a government is, we regret to say, productive of much evil. The Bank of San Luis has, we understand, decided not to discount any Government paper.

The Monday edition of our esteemed Rosario contemporary the *Capital* has a severe article on the partiality displayed by the Municipality for gas. By a freak of the printing-press—the 'leads,' which were evidently loose, were forced up during the printing, so that every line is underlined. The accident is perhaps a happy one, since the Rosario public will, no doubt, have read the article with more than usual attention.

Last Sunday witnessed elections in Cordoba for the renewal of the local Chamber of Deputies. There were several heads broken. There was some Radical blood spilt.

We note that in several of the prosperous colonies of Santa Fe the settlers, having heard that the 9th prox. is an Independence day, are preparing to commemorate the occasion with a series of grand balls. The Santa Fe settlers are just as enthusiastic as the Argentinos themselves on such patriotic anniversaries.

Governor Pizarro of Cordoba has dismissed Messrs. Freire and Garzon, directors of the Provincial Bank. It appears he politely asked these gentlemen to resign. They politely refused, and the comedy was brought to a close by his politely dismissing them. We suppose H. E. intends to revive this lamentable concern.

FREE WOOL.

Mr. Editor,

In a leading article under the above heading in the STANDARD of the 19th you say: "The struggle of the unfortunate woolen manufacturers against a taxation which closed their mills and ruined their industry dates back to a period before McKinley was thought of. The new tariff, however, seems to have been the historic hair that broke the ass's back."

Poor woolen manufacturers, how blind they have been and how they do like to be ruined.

Census Bulletin No. 169, recently issued shows that the condition of this persecuted and unfortunate industry is truly deplorable (?) It is as follows:—

	Millions of $	
	1890	1880
Capital	296	159
Raw materials	203	164
Value of Products	338	267
Wages paid	77	47
	Thousands	
Employees	221	161
Spindles	3,286	2,254
Looms	70	58
Knitting machines	37	15
	$	$
Wages per hand	347.22	293.33
" increase	53 89	

The amount given opposite the heading "Wages per hand" is the average per annum for every man, woman and child employed, whether they worked for a full year or less. The product has increased in quantity much more largely than it has in value showing that a reduction in prices has taken place.

At the last presidential election the sixteen New England, Middle and Western states, whose mills in 1890 contained 3,087,303 of the 3,286,280 spindles in operation in the entire country, voted for protection, with the exception of two small states, Connecticut and New Jersey.

If the representative journal of the poor woolen manufacturers, that represents their association, and if the columns of the Boston *Commercial Bulletin* that are devoted to the woolen industries, really represent the manufacturers and they apparently do; they, the manufacturers, do not want the duties on wool removed. Now I mean just what I say, the duties on the raw material, "wool."

I do not like to attack statements made in a leading article like the one referred to in this way, but the figures of the *Census Bulletin* don't agree with the statements made therein, and I know you do not wish to mislead your readers. Perhaps you have been misled by an article that appeared in some U. States paper, that was written for campaign purposes?

The papers referred to as representing the woolen manufacturers have published items and figures showing that a large number of mills that had been shut down for months, some of them for over two years, have under the operation of the McKinley Act started up.

You refer to the Free Wool Bill passed by the Democratic House of Representatives as being likely to pass the Senate. Now the Senate and the Government are Republican, they are not for free wool, and if they were they have this condition of things to face.

The amount of revenue collected for the eleven months ending May 2nd, 1892, was less by some $46,000,000 than the corresponding period of 1890 and 1891.

The McKinley Bill is responsible for the greater part of this reduction in the revenue, most of it coming from the removal of the duties on sugar, coffee, etc.

The expenditures for the same length of time as above referred to, up to May 2nd, 1892, were about $4,000,000 in excess of the revenue. Were the duty on wool to be removed, it would still further reduce the revenue. So for that reason alone, if there were no other, it would be highly improbable that a change would be made.

It is not probable that any radical change will be made in the present tariff for some time to come, unless the Democratic Party meet with a sweeping victory at the polls in November next. And, even should such an event take place, you will find that a responsible Democratic Government will act very differently from a Democratic House of Representatives, on the eve of a Presidential Election, that well knows that its actions in many cases will not be endorsed by the Senate, representing the Government Party.

BALANCE OF TRADE.

Mr. Editor,

As one of your correspondents in the early stage of this discussion, permit me to review the situation and to recall to your readers what has already passed; in order that the issues may not be confused, and that any ideas begotten of this correspondence may not disappear through the weft and woof of these letters like a knotless thread.

It began with a criticism from your Rosario correspondent on the Presidential message, in which "W. P." condemned in his usual vigorous style the idea that the ruler of this country should in an important official document congratulate us on the fact that the exports have exceeded the imports. This criticism brought down on your devoted head the flagellation administered by "E. Ignoramus"; and the minnows of political economy were delighted to follow in the wake of that Triton. It has been concluded by a disquisition on the whole science of banking by the able pen of "R. M.", which only serves to show how far from the point in question able minds may drift.

Nobody denies, not even the STANDARD, the existence of a balance-of-trade. What I have denied, and what I believe the STANDARD has invariably denied, is that that balance can be manipulated by artificial means for a beneficial result, and that is what "E." has asserted and to which "R. M." gives colourable support. England with her large excess of imports most certainly gets richer. By them she receives the income owing to her, and like a prudent "auld wife" she saves part of it, and is that not the increment of riches? Argentina, like the prodigal son, for some years back has been exchanging the wealth from her productive loins for swell horses, carriages, artistic furniture and such luxuries, as good Americans only get when they die and go to Paris, and now she pays for them with an excess of imports, but will anybody assert that she gets richer thereby? That to my mind disposes of the balance-of-trade theory, in its simplest form, but a whole host of other matters are imported into it. These are like cousins or poor relations who while related in blood to the head of the house, have no act or part in his domestic economy. Such are the currency the rise and fall of gold, the revenue of the country, and the means Government adopts to raise it.

All these things are mixed up by your correspondent like the last charge of the Old Guard at Waterloo. They have not room to deploy, and so they get bowled over.

Yours.
R. B. M.

ROMAY IRON MINES.

Frias, June 11.

Mr. Editor,

Would you kindly allow me a few lines in reply to Mr. J. B. Ansaldi, with a promise on my part that this question will not be as long as the run of the "Scot" or yet as deep as the troubles of a young merchant."

The line to Sr. Sotomayor's colony does not measure 5 kilometres long, as far as it is at present constructed. I understand it was proposed to make it 10 kilometres.

As to length of required bridge, the Central Northern bridge over the Albigasta is 120 metres long; that it is not sufficiently so is proved by the fact that the railway has spent thousands of dollars in defences to keep the abutments from being washed away. Proofs are the actual defences on both sides of the river at present. Therefore, I think it hardly likely that Mr. Schwartz could safely get over the river with a 40 or 50 metre span; no doubt this size of bridge would be very convenient in dry seasons when there is scarcely any water in the river, not so in the rainy season. Besides, where he proposes to cross he would want abutments or screw piles over 15 metres high from water level, otherwise a swinging bridge.

Sr. Francisco Monti's Railway is not a Decauville; it is a 1 metre gauge, same as the Central Northern, and is built with "quebracho colorado" sleepers and iron rails. Cargo would not require any transhipping at Frias, as it is already connected with the Central Northern system, whose waggons and engines have been running over this line.

I do not at all question Mr. Ansaldi's figures as to cost of production of 1 ton of iron, and have no doubt that the Central Northern Railway would make a considerable reduction in actual freight, as the mine at work would prove a very valuable feeder to the line.

As regards the quantity or quality of mine, nobody who has seen it can have any doubt, as it is more or less a mountain of nearly pure iron, which only requires to be got at with 15 kilometres of Railway, in order to prove a gold mine to its owners.

If Mr. Ansaldi still has any doubts as to my statements in this or in "Fierros" letter which he wanted to rectify, I shall be very happy to prove them at any time by actual measurements, and observations on the spot.

Yours faithfully,
Acero.

EXPORT OF LIVE SHEEP.

In view of a complaint made in a friendly tone by the French Government in regard to the condition of sheep shipped from here, the National Government asked the Rural Society to report on the subject. The Society has issued a report, which we summarise as follows:—

"The question is a simple one. Where are the sheep shipped? Generally here in Buenos Ayres and La Plata, and sometimes at Paraná, Rosario, San Nicolas and Campana. The question might be settled by having veterinary surgeons at these ports to inspect the sheep. However, it is well to call the attention of the Government to what appears to us a more important phase of the question. We think that it is by no means safe to affirm that the appointment of veterinary surgeons will cause the evil to disappear. Scab, like all parasitical diseases, has its period of incubation, and a sheep free from all symptoms at the moment of being shipped may be seized with scab by the time of the arrival of the vessel at destination. The existence of the parasite, when in reduced numbers, is by no means easily perceived. In fact, it is sometimes impossible to perceive it. Add to that the difficulties of properly inspecting when the animals are shipped by thousands. Add, moreover, the delays and complications which a thorough inspection would involve, and it will be seen that the proposed measure would not only defeat its own ends, but even fetter the business. Our opinion, is, therefore, the best way to settle the question is to leave to private interest the task of preventing the development of the disease during the voyage and of taking those precautions prompted by science to ship the animals in a perfectly sound condition. The French Government deserves our best thanks for the friendly admonition and it would be well to ask that Government to display the greatest severity in future. This severity and the publication of the measures taken would soon cause exporters to adopt the proper measures for the suppression of scab, as it would not suit them to have their animals rejected. Furthermore the solution we propose is no burthen to the State."

EDITOR'S TABLE.

The great day has come, and the great nights are at hand. We hope that all have their pockets full for the charitable fray. Go and buy is our advice to all English-speaking citizens with their hearts in the right place. We are asked to state that during the three days of the Bazaar any gifts of flowers will be thankfully received at the Flower Stall.

Mails for dear old Europe. Take note, readers, that you have to-day the choice of sending your penmanship home either by the R. M. S. Tagus or the French steamer Orenoque. If your patriotism induces you to select the former, you have until 11 a.m. to catch the post; but the bags for the Frenchman close an hour earlier. The Espagne and Rosario will sail for Europe on the 24th, the mails for the former closing at 10 a.m. and for the latter at noon.

The great baritone Cesari has arrived for the San Martin Theatre, and will make his debut in Fra Diavolo with the tenor Annavazzi. The San Martin will now be even more crammed than ever. This is no crammer.

We are asked to remind members of the B. A. C. C. of the special general meeting to be held this afternoon at 5 p.m. in the Scotch Church School-room, Calle Piedras 55. See advertisement in another column.

We thank Messrs Mackern and Shine for English papers to 28th ult.

According to last night's telegrams the Rio Grande patriots intend to have a big fight at Bagé, where General Somebody has 3,000 men ready for anything.

From Montevideo the latest news by wire is that President Herrera intends to throw talk, theories and Unique Banks to the dogs, and work such a "plan salvador" out of his own unaided brains as will astonish the natives, the foreign residents, and, above all, our London friends.

The religious ceremonies held yesterday at the Cathedral in honour of the great patron of youth, St. Louis Gonzaga, were well attended by most of the schools in town. It was edifying to see children so quite and attentive during so long a service. The little fellows from the Boys' Orphanage attracted much attention amongst Argentine gentlemen, many of whom spoke to the boys' in Spanish, and were surprised to find how well the children answered in that language.

The auction sale to-day by Mr. J. E. Irish at the Bankrupt Stock Emporium, 78 Suipacha, will be well worth the attention of those requiring furniture, as it is similar to Barnum's Greatest Show on earth: all classes of articles suitable either for the princely mansion or the peasants hut.

The empresario of the Teatro Nacional has received by the Orione the score of the opera "Diamanti di Terruel," in which the company will probably make their debut.

There was a printer's error in yesterday's issue, and not a spark of fun in it to redeem the mistake. In the advertizement of a vineyard for sale near Mendoza, the address of the House, Land and Estate Company was given as 732 Calle San Martin, whereas it is No. 132 in that street.

We much regret to read in the *Southern Cross* the death, at the early age of 16, of Miss Mary Anne Clavin, who died at the Convent, Chivilcoy, on Saturday the 4th inst. Deceased was the eldest daughter of Mr. David Clavin, Saladas, and succumbed to an attack of the prevailing epidemic—influenza—after three weeks' illnes, borne with Christian fortitude. The death of Mr. Michael Keogh is also announced. The sad event took place last Thursday, at the estancia of Mr. M. Dillon of Capilla del Señor. Deceased, who came to this country very young, was a native of County Westmeath, and he never forgot the land of his birth, which always had a deep place in his affections. He was generous and good, and always had a kind word for all who met him.

We have to thank Messrs Galli Hermanos, the well-known news agents, for English papers to may 28th including the *Illustrated London News*. Also New York papers.

The papers from Montevideo yesterday were remarkable for a plentiful scarcity of news. The financial muddle grows more muddy daily. Football is flourishing. The United Charities appear to be settling down to business. The Entertainment Society gave a Social Evening on Monday.

We read with regret that society in London and England generally has a grievance. It is suffering from a rapidly-increasing dearth of dancing men. A few years ago, when to be a skilful waltzer carried with it some social distinction, young men were active enough in a ball room. But a moment was reached when everybody danced more or less well, and the art, by wide diffusion, grew into contemp. The present popularity of skirt-dancing is attributed by an evening paper to the decadence of the dancing man. Party-giving just now is full of briars and thorns for hostesses.

Wise Chile. No less than three English banks have lately been pressing any amount of money on the Government of President Montt, but it has been declined with "las mas espresivas gracias." This should also be the course of Dr. Peña when he gets into the State pigskin. No more loans, big or little.

The opening of the "Exposicion de los Labores de la Mujer" has been postponed till the 15th of July, and exhibits can be sent in up to the 14th.

Another P.O. clerk in trouble! Mr. Peter Ferreyra, employed at Roca, Rio Negro, who helped himself to some public cash in the past merry month of May, has been condemned to return it with interest, and to give up for four years all idea of becoming a Cabinet Minister, or aspiring to any public post whatever, even that of porter in a Juzgado.

The most conspicuous place in the Woman's Building at the World's Fair in Chicago is being reserved for the exhibits which Queen Victoria and members of the English Royal Family have promised to send. Her Majesty's contribution will comprise some specimens of her own knitting and spinning, and also some pictures which she painted when a girl. The Princess Christian, Princess Louise, and Princess Beatrice will also send specimens of embroidery and needle work.

The Committee of the Barracas English Institute have decided to postpone the dance announced for the 23rd inst. until the 8th proximo, in order that it may not clash with the Bazaar to be held for the benefit of the British Hospital.

Noblesse oblige. In order not to interfere with the success of the British Hospital Bazaar, the Young Men's Society of the Scotch Church will not meet this week. The debate fixed for Thursday first will therefore take place on 7th July, the Social Meeting being held, as arranged, on 30th inst.

The Influenza Fiend is getting tired. On Monday he carried off only five victims.

The Lord Mayor has won the Inspector of Theatres battle. The City Fathers held a secret sitting on Monday and approved the appointment of Mr Demetrio Sagastume to the post. They also had a long chat about the extremely shaky condition of the Municipal finances; and there was a general shaking of heads and compression of lips as the ediles broke up and retired to the bosoms of their families. Nevertheless, only a few days ago they voted an arrangement with the foreign holders of Municipal Bonds.

That fight in Rio Grande cannot have been very severe. It lasted three hours, and the "carnicero's" bill was, as far as we can see, one killed, one wounded and nobody missing: a nice, Christian-like battle that even a Quaker could not object to. The republicans won all along the line.

There was a Kit Columbus meeting at the Spanish Club last night, at which distinguished Spanish, Italian, Argentine and Portuguese citizens attended.

The Primitive Gas Company will reduce its price to 30 cents per cubic metre from July 1st. Those who burn a good lot of gas will be allowed an enticing discount.

The art of producing "boiled shirts"—that is to say, the art of starching—was brought into England by Mrs. Dinghein, from Flanders, about the middle of the sixteenth century.

A British subject named John Egan, 40 years of age, dropped dead in an almacen at the corner of Calles San Martin and Corrientes on Monday night.

Here's an old story and a good one: "In a pleasant company each one asked a question. If it was answered the questioner paid a forfeit, or if he could not answer it himself, he paid a forfeit. An Irishman's question was, "How does the little ground-squirrel dig his hole without throwing any dirt about the entrance?" When they all gave it up, Pat said, "Sure, do you see he begins at the other end of the hole." One of the rest exclaimed, "But how does he get there?" "Ah!" said Pat, "that's your question. Can you answer it yourself?"

There are apparently still some black sheep in the General Post Office, as well as the country branches. Yesterday, two clerks in the "Valores" office were arrested for opening letters and appropriating the contents.

The official enquiry into the circumstances attending the grounding of the British barques Oceana, was held last week at the British Consulate, Montevideo, the Court being composed of Mr. Alfred Grenfell, British Vice Consul, President, Lieut. Bruce of H.M.S. Beagle and Capt. Charles of the ship Bucklay Castle with Paymaster Penfold of H.M.S. Beagle as clerk. The enquiry resulted in a verdict of three months' suspension of Captain's certificate, the fact of his having held same for nearly 20 years without a stain somewhat mitigating the sentence.

If there are any of the tribe of vegetarians in Montevideo they must have a pretty hard time of it just now. The "quinteros" are still on strike and resolved to stick to it; and there is not a vegetable of any kind to be had for love or money, as the strikers buy up what is sent from here. The prices of the little "verdura" to be had here and there are more than phenomenal, and calculated to make the most fanatical vegetarian swallow a juicy beefsteak rather than pay such a deuce of a figure.

Dr. Alem is expected back this week to set the "trabajos politicos" of the Radical Party going again. "Trabajos politicos"! We thought everything in the t. p. line was set at rest for the next four or five years at least by the Acuerdists' triumph of last Sunday week.

We received yesterday from the world-renowned firm of Leonhardt & Co. of Birmingham, makers of the famous Ball-pointed pens, a nice present of half a dozen boxes of same, for which we beg to tender the firm our best thanks. Whenever our duty to the public obliges us to make pointed remarks, we are now well supplied with the best medium on earth for transferring them to paper and print.

Here's a hint for those interested in fostering the growth of the "delicious bi-valve" in this country. It comes from Philadelphia, the City of Broadbrims and sedate gentlemen who can "sample" edible delicacies as well as other people with narrower leaves to their hats:—"Live oysters taken from the water at Norfolk, Va., March 19, and sealed up in the shells by a new process, were exhibited at the Produce Exchange to-day. When taken out of the shells the oysters' hearts were palpitating. By the new process they can be kept alive and fresh forty days. The shells are sealed together with soft metal rivets and made air tight. No chemicals are used in the process. The riveting can be done at the rate of thirty-two oysters a minute. A. A. Freeman of Philadelphia is the inventor of the process and W. L. Rushton is forming a syndicate to operate it."

We are much obliged for the railway speed cuttings sent to us yesterday, and will avail of them gladly, now that the State of Siege renders everything so wretchedly slow for newspapers.

We received a polite notice yesterday to the effect that ladies and gentlemen who are fond of dabbling in the Fine Arts, engineers, architects, master builders, draughtsmen, contractors for public works etc. etc., will hear of lots of things to their advantage by calling at No. 1144 Calle Rivadavia.

A celebrated lawyer said that the three must troublesome clients he ever had were a young lady who wanted to be married, a married woman who wanted a divorce, and an old maid who didn't know what she wanted.

Hush! Hush! Hush! Here comes an Englishman!

ON 'CHANGE.

Tuesday, June 21st.

A strong bullish reaction has crept into the gold market and has completely changed the aspect of affairs on 'Change. Whilst gold rises, stocks and shares droop, and operators wonder at the causes of the sudden changes. The majority view the rise in gold as the inevitable reaction after a heavy fall: many speculators are now buying back and are securing handsome margins at present prices; whilst this process continues, a fall in gold is quite out of the question, but it is better for the market that this kind of liquidation should take place at present rather than on the very eve of the settlement, when a violent rise might be the result of the over-speculation of the bears.

Eighteen thousand ounces changed hands this morning: the price opened at $50.30, rose to 50.90, and closed at 50.80, say 212 ½ premium. Sixteen hundred sovereigns were sold: the price opened at 15.65 and closed at 15.75, say 212½ premium. The requirements for to-morrow's packet had much to do with the gold requirements of the morning. Some attribute importance to the news that the leaders of the Radical party would return to this city this week; we fail to see, however, what effect their arrival can exert upon the price of gold. The speculation ruled very hard all morning, and many leading operators appeared to be buying back in a hurry.

Patriotic Bonds were comparatively active, but weak. About a quarter of a million changed hands, prices closing at 69 for the end of the month and 68.80 for cash. Internal Bonds closed at 63. The cheapness of money keeps up the price of Patriotic Bonds and Empresitto Interno; money is quoted at 8 and 7½%, whilst these stocks give a much higher rate. As the tendency of the market is towards further cheapness, it is probable that both these stocks will improve. It must be remembered that now that La Plata Cedulas are overlooked, Patriotic Bonds and the Empresitto Interno are the only regular investment for savings of the people.

Spanish Bank shares maintain their quotation at 110. Catalinas are drooping: they are no longer a shadow of the booming stock of last week: they closed at 9.30 for cash and 9.40. for end of the month. The rise in gold appears to have knocked on the head the rise in Catalinas. La Plata Cedulas are tottering again: K closed at 31.20, M. at 31.40, N at 31.90, O and P at 31.50; all these rates are top-heavy. Bonos of the La Plata Mortgage Bank which were at 22 last week were to-day at 16, say 84% discount—these are great fluctuations in a single week.

Exchange shows no improvement. Banking paper was quoted this morning at 47d. on London—the rate in the open market at 47¼d. Francs ruled the same as yesterday. Discounts are daily easier.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

We take the following from the *Financial Times* under date London, 27th ult.:—

"This being Ascension Day, the Continental Bourses were closed, but although little was doing on the Foreign Market prices were well supported. Owing to the Catholic festival no quotation of the gold premium came over from Buenos Ayres, but the market remained good, the Funding advancing ¼, and the Sterling issue of 1886 rising ¼, while the various Cedula issues are about ¼ better all round, Series P alone remaining stationary. Under the lead of Central Argentines, which have been freely bought on the publication of the excellent traffic we foreshadowed, a cheerful tendency has prevailed in the market for Argentine Railway stocks. The gross take is £11,008, or an increase of £3,869—the best record the road has yet shown. The utmost expected on this side as an increase was about £2,500, and the price has been run up a couple of points to 67. Still the quotation is lower than it was at this time last year, when the road was doing nothing like the present business, and when the gold premium was fifty points higher. The traffics since the year began now show an increase of £5,211, a balance on the right side that is likely to swell week by week now that trade is improving in the Argentina. Other Railway stocks shared in the rally, Rosario Ordinary rising 4, and Buenos Ayres Great Southern 1. South Americans generally were in favour, a rise of 4 being marked on both Uruguays and Brazilians, while Mexican Sixes are equal extent."

We take the following from the *South American Journal*:—

"The Buenos Ayres correspondent of the London *Standard*, on Monday, sent a telegram to that journal, intimating "the withdrawal of £1,000,000 from circulation by the Treasury." He goes on to say that this had "made a bad impression." All this is perplexingly vague, and cause and effect are here, if there be anything in the principles of economic science, in irreconcilable conflict. Had it been a case of making another issue of $1,000,000 in "shinplasters," one could understand that such an event might cause a very sinister impression indeed. An opposite course, however, should have a satisfactory influence upon the financial and commercial communities. But there, we give it up for one of those things that no fellow can understand."

The close of the subscription to the shares of the Banco de la Nacion Arg

market. It is destined to be the great Bank of this Republic, and has already done more to remedy the crisis than most people are willing to admit. The capital already subscribed is quite sufficient for the present. Money is at 6 per cent; business is good, and there is a healthy activity in the market; all this improvement dates since the starting of this bank; and although its capital is small there is nothing to fear on that head since some of our largest and most successful enterprises have sprung from very small beginnings. President Pellegrini can leave the market no better or more lasting monument of his excellent administastion than this bank, thrown open to the public and in the hands of shareholders who never, in the darkest period of the crisis, lost faith in his Government or in the country It is probable that before February the outside public will be but too glad to hold shares in this bank, which is at present the object of such bitter attack by an opposition party that has its ramifications on the Bolsa.

Cheques of the Provincial Bank which stood at 40 % yesterday fell to 47 % discount to-day. We think that the Camara Sindical ought to give these cheques a quotation on the black-board, as the majority are in the dark with regard to closing quotations.

We call attention to the advertisement in another column offering a fine vineyard for sale in the province of Mendoza, where the famous earthquake wine is produced.

Fourteen thousand ounces were sold at the second ring for to-morrow: the price opened at 50.90$, fell to 50.30, and closed at 50 40, say 209¾% premium. Sovereigns closed at 15.67$, say 211 % per cent premium. The market closed heavy: the spurt of the morning was short-lived. Patriotic Bonds closed at 69. La Plata Cedulas were slightly firmer. Catalinas were weak.

The following is a summary of the business effected in stocks and shares to-day at the second ring :—

We see by the Asuncion papers that the leading residents of that capital gave Mr. Charles Duff, of the Paraguayan Central Railway, a farewell banquet previous to his departure for Buenos Ayres and Europe. Enthusiastic speeches were made and all expressed hopes that Mr. Duff would return before long to Asuncion, where he is deservedly popular among the British residents and natives.

Messrs. John G. Meiggs, Son and Co., concessionaires of moles and wharves on the Rio Parana, in combination with the Cordoba-Rosario Railway, have requested permission from the Government to transfer their concession and rights to that railway company.

The Accountant General has drawn up the guarantee account of the Bahia Blanca North Western Railway for the half year running from February to July, to the amount of 87,832.15$m/n.

The Contaduria General, in answer to the request of the Transandine Railway Co. for payment of guarantee running from 22nd February to 31st December 1891, states that the appeal is one that remains with the Government, which can extend to the Company that favor, as it has done to other companies placed in similar circumstances. The Contador-General, however, calls attention to the fact that the Company have not yet finished certain works which they should have completed ere this.

TEA
LA MAGNOLIA

INJURIOUS TEA DRINKING

In the "Daily Post" of September 2 appears a leading article—evidently from an analytical expert—showing that after 15 minutes "draw," Indian Tea yields 17·73 of tannin, while from China comes only 7·93. What this means few know, but those troubled with indigestion may realise in part by use of True China Tea for one week.

EXTRACT OF TOBACCO.
According to numerous testimonials which we hold the extract of pure tobacco is the only infallible remedy to radically cure the scab in sheep and naturally the cheapest. As there are several trade marks like ours care must be taken to see that the extract bears the key marks, without which it is not genuine.
Directions for use
One part of extract mixed with 100 to 150 parts of hot or cold water for bath, and with 80 to 100 parts for hand curing.

STEPHENS INKS
IMPORTANT NOTICE
Stephens' Inks
Falsifications of Stephens well-known Blue Black Writing & Copying Fluids are now being sold in this town as the genuine inks. The original bottles which have contained Stephens' Inks are being refilled with the imitation and the trade-mark, labels and seal are very closely copied. The principal difference between the true and the forged label is that the lines and ornamentation in the red groundwork of the imitation are blurred and indistinct, instead of being sharp and clean as on Stephens' genuine labels. It is to be noted that the litre and half litre bottles of Stephens' genuine Inks have a patent cork attached consisting of a metarien with teeth into which a cork is fastened. *The fraudulent bottles have no such cork.* The fraudulent ink writes of a greenish blue colour and thickens in the inkstand very rapidly, whereas Stephens' genuine ink writes a strong blue colour and keeps perfectly fluid in the inkstand. Assist in the prevention of this fraud by destroying the bottles which have originally contained Stephen's genuine inks.
Stringent legal proceedings will at once be taken against all dealers selling the fraudulent inks.

PHOSPHATIC
BAKING POWDER
BARON LIEBIG, the world renowned chemist said, "I have though a great series of experiments, satisfied myself of the purity and excellence of your preparation The bread has no acid, is easily digested, and of the best taste. Aside from the conveniences this invaluable idea of yours has provided, I consider this invention as one of the most useful gifts which science has made to mankind! It is certain that the nutritive value of the flour will be increased 10 per cent by your invention, and the result is precisely the same as if the fertility of our wheatfields had been increased by that amount.
What a wonderful result is this!"
